

## **Brickwork L2 Progression Summer Project – please complete all tasks**

### **Task 1**

In preparation for the Level 2 Brickwork Diploma we would like you to complete a small written assignment.

This work must be completed and handed in for review at the start of your induction week.

The assignment needs to:

- be 300 – 400 words approximately (including images if you want to include them)
- be typed or handwritten
- include your name

The assignment question is:

**Outline and briefly describe the stages of the build process for a basic masonry structure (e.g. four bedroomed detached house). You must include a summary of the role a Bricklayer performs during each stage of the build and indicate which other trades come before and after him/her.**

### **Task 2**

**Provide a brief description of the job role for each of the following key construction personnel and indicate the category they fit in to e.g. Architect = professional**

- General Operative
- Carpenter
- General Forman/woman
- Site Manager/Agent
- Quantity surveyor
- Contracts Manager
- Building Inspector

### Task 3

**Skilled Tradespeople like Bricklayers are a vital part of the everyday operation of the Construction Industry and must have a range of personal skills and qualities in order to perform their role effectively. Produce a mind-map or spider diagram of these skills and qualities, you should aim to list around 15**

e.g. good punctuality

Please ensure you have completed all three tasks and are satisfied that the answers provided are robust enough
