

Welcome to Team Media!

You are about to start on an amazing journey of discovery with us to find your niche in the world of creative media.

Throughout your course you will be set projects which will involve you coming up with lots of ideas and making something.

To start you off, and give you a chance to demonstrate to us just how creative you can be, we've got a project for you to work on over the summer.

It starts with...a footprint!

What we'd like you to do before coming back in September is to create something inspired by a footprint. This could be a story, illustration, game concept, photography, video, animation, or absolutely anything* you can think of!

Have a fun and creative summer, we're really excited to see what you bring back to show us in September.

Dave, Mark, Paula & Sarah

*as long as you create it, it's kind to animals, environmentally friendly and is not illegal
